Message from the Director North Gujarat Education

In today's competitive world education has emerged as the fourth necessity for man after food, clothing and shelter. Education is indeed a powerful gizmo to combat the cut-throat competition that man is faced with at every junctures in life. The significance of education in India is indeed rising with passing time. Though India has always been a great source of learning for many years, it still needs to improve not just on the quality of education but also on the number of people being educated.

Down in the memory lane I recollect that Bhagwati International Public School is soaring up on both the aforesaid aspects of education i.e. there is a noticeable improvement in the quality of education and in the number of pupils being educated as well. Both these aspects are interdependent as rise in the number of students always depends on quality of education being provided. Today Bhagwati International Public School Patan has emerged as a most sought after and only CBSE Senior Secondary school in the district.

BIPS Campus has always been buzzing with a variety activities targeting the multi-dimensional and versatile development of the young students under its protective umbrella. The ongoing session witnessed a gala of scholastic and co-scholastic activities in the campus which wre participated by students with great vigour and enthusiasm. 'The Bhagwatian Times' in your hand just carries some reflections from the world of your child. I acknowledge the efforts of the BIPS team, who have been directly or indirectly involved in the publication of this news bulletin and wish them success in all their endeavors.

Wishing you Happy Diwali and prosperous New Year,

With warm regards,

Dr. J.H. Pancholi

From the Principal's Desk

We, as administrators and teachers recognize the importance of parents as indispensable stakeholders in the marshaling of school affairs. There is no question about it – success at school begins at home. Parents are the single most important variable in a child's schooling. One of the most important blessings a school Principal can have is a good rapport with the Parents Community. The close partnership between home and school is one of the exceptional strengths at Bhagwati International Public School.

BIPS has a strong tradition of supportive, hard-working parents. As a head of the institution it comes as a boon in a disguise to me. During my short association with BIPS, I always felt a strong whiff of motivation and encouragement in the form of their presence at each and every occasion they were invited to. It's a way to let your child know you think his or her school is important.

As the head of the institution one of the dreams I cherish is to provide time for our children. The harsh realities of the world will be there all too soon. It is the hope of BIPS that all parents will help us fulfill this commitment to excellence on behalf of ALL children under our care can work together to build skills and knowledge, reinforce values, and develop a strong sense of self worth. We must invest our time and energies in our nation's most valuable resource- our children

Wishing you happy parenting.

With warm regards

Rajendra S. Malwal
